```
graph TD; A([align  
id: 193525at7742]) --> B(trim)
```

This diagram shows a flow from an alignment step to a trimming step. The alignment step is represented by a red dashed rounded rectangle containing the text 'align' and 'id: 193525at7742'. A thick gray arrow points downwards from this rectangle to a green solid rounded rectangle containing the text 'trim'.
